

Things that I Love About Vermont

By Noah

Here in Vermont there are some things that I love! I love all the animals and the terrain. Just because we are a little state, well doesn't mean we don't have a lot! Most people who live here don't really want any big cities or skyscrapers here because we all love all of nature! One of the main things that makes Vermont so special and that's the way that we are alike and love it. It is probably why the people chose to live here.

And it's got things that all sorts of people love to do. Like in the winter our mountains and hills are great for sledding and skiing. And in the spring and summer it's great for the people who love to watch the birds. But even though the summers are short, we all try to make the best of it! We have lakes and mountains to hike on! In the fall is for the people who love to make piles of the fallen leaves, whether it be for cleaning up or just so you can jump in them! We are known for beautiful autumn leaves.

All of the animals have a reason for doing what they do, even bugs birds and fish. And if you're one of those people who just like to stay inside on a cold winter or on a hot summer day then you can and the views are beautiful with all of our nature and mountains and hills! But no matter what you or I like to do, Vermont likely has the outdoors options for you!

The schools are great and the people are nice, too! And one of the other things that's great about Vermont is if you like fishing and swimming then Vermont is for you. But if you are one of the people who don't like nature that much then you can go live in one of our towns. My second favorite town in Vermont is Middlebury because if you're not in the mood for a good old nature walk than you can go for a nice walk around the great town of Middlebury or you can go and play on some of Middlebury parks or

playgrounds or you can just go shopping and in Middlebury! It has lots of good restaurants that are almost never closed and Middlebury has a good amount of hardware stores and things like that.

But my number one favorite town in Vermont is Salisbury because it has a great school with good and super nice teacher and there it helps you learn be nice to others and then the teachers are always willing to help and there they help you learn about how to keep and help the environment healthy and that's one of the reasons why we all like to keep our beautiful green mountains all clean and healthy and there is always great education there and in Salisbury there's lots of homes super close to the school and the great thing about it is that they all still in or just by the woods. In Salisbury there's lots of farmers around and that's one of my favorite parts about it because I love animals. And those are some of the reasons why I love Vermont and if you're coming and are going to be new here then that's why I hope that you will love and appreciate Vermont too! Another thing is that we all love at least some of the animals that live here in Vermont. So that's all. Bye! Have a good day.
